THE HISTORY OF THE UNITED STATES

The history of the United States is a story of growth and change. From the first settlers to the present day, the nation has evolved through various stages of development. The early years were marked by exploration and settlement, followed by a period of rapid expansion and industrialization. The American Revolution and the Civil War were pivotal moments in the nation's history, shaping its identity and values.

The American Revolution was a turning point in the nation's history. It was a struggle for independence from British rule, fought between 1775 and 1783. The revolution led to the creation of the United States as a sovereign nation, with its own government and constitution.

The Civil War, fought between 1861 and 1865, was another pivotal moment in the nation's history. It was a conflict between the Northern states, which opposed slavery, and the Southern states, which defended it. The war resulted in the abolition of slavery and the preservation of the Union.

The American Civil War was a conflict between the Northern states, which opposed slavery, and the Southern states, which defended it.

The American Civil War was a conflict between the Northern states, which opposed slavery, and the Southern states, which defended it. The war resulted in the abolition of slavery and the preservation of the Union.

MICHIGAN PEAT

MICHIGAN PEAT - AFRICAN VIOLET SOIL - ROSE SOIL - POTTING SOIL

Michigan Peat is 97% organic matter, weed free and contains almost 3% available natural nitrogen. It is finely textured.

Michigan Peat is not a sphagnum or moss peat - but a sedge type peat that is decayed vegetation from extensive deposits, centuries old. It is rich brown in color and furnishes the "humus" necessary for greener lawns - stronger root systems - more abundant roses - blooms - flowers - healthier plants and vegetables.

Five convenient size packages to fit your needs. Attractive polyethylene bags for counters.
